Broadcasting
IN & OUT

Our Solutions

Webcam / Microphone
PowerPoint / Keynote
Broadcasting platform
Duplex

Recording & Delivery

Speakers' pre-recorded presentations with remote assistance. Slides/audio directly imported on a **broadcasting platform**, dedicated to a selected event with open personalization and Ad placement. Digital material available online for reference and broadcast during the event.

Assisted Pre-recording

Speakers pre-recorded presentations under live conditions directed by a project manager. Slides/audio, webcam and overall quality check. **Visual identity** (music, texts, flow, design...) and **post-production** (camera shots and angles) by our services. Online digital material for live broadcast during the event.

Remote but "live"

Speakers' location recording for immediate interaction with a dedicated audience. Real time broadcast of remotely recorded presentations, one take under 100% live conditions. Material live and online transmission.

SUPPORT

We are here to accompany your speakers and guide them every step of the way, so our solutions lead them to success

Your Needs
